Request for Fluid Milk Substitution – Adult Care

Adult Participant's Name _____

Non-dairy milk substitution request:

If an adult participant cannot drink cow's milk due to medical or other special dietary needs but does not have a diagnosed medical disability, your provider may choose, but is not required, to provide a non-dairy milk substitute that is nutritionally equivalent to cow's milk, based on your request. At this time, only four brands of non-dairy milk substitutes available in Washington meet the definition of being nutritionally equivalent to cow's milk: 8th Continent Soymilk (Original and Vanilla), Pacific Ultra Soy (Original and Vanilla), Great Value Original Soymilk and Kirkland Organic Soymilk (Plain).

By completing the information below, the adult participant may be served one of these soy milks, provided by the adult care facility (if the adult care facility chooses), or provided by you.

Identify why the adult participant requests a non-dairy milk substitute: _____

_____

_____ I request the adult participant be served the adult care facility provided soy milk as described above for meals that require milk.

_____ I will provide one of the soy milks described above for meals served to the adult participant that require milk.

Providers are required to serve a milk substitution that is nutritionally equivalent to cow's milk if the adult participant has a documented medical disability, diagnosed by a licensed physician, either a M.D. (Medical Doctor) or a D.O. (Doctor of Osteopathy). If the adult has been diagnosed with a medical disability that prevents the adult from consuming cow's milk or one of the approved soy milks listed above, submit a note from the physician identifying the following:

1) The adult participant's disability
2) The major life activities/bodily functions affected by the disability
3) A description of how the disability restricts the adult participant from drinking cow's milk and approved brands of soymilk
4) The prescribed food substitute

Cow's milk substitution request:

Providers may choose, but are not required, to serve lactose-reduced or lactose-free milk or organic milk to adults in their care. If the provider does not serve these milks, the household member/guardian may bring the substituted milk for the adult to consume while in care.

_____I will provide 1% or nonfat lactose-reduced or lactose-free milk to be served in place of the milk served by the provider.

_____I will provide 1% or nonfat organic milk to be served in place of the milk served by the provider.

Dear Participant:

Our center does not charge separately for meals because it participates in the U.S. Department of Agriculture's (USDA) Child and Adult Care Food Program (CACFP). The CACFP is a program that pays centers for nutritious meals served to all eligible participants in attendance.

How much does the center receive in payment for meals served to participants?

The amount of payment received depends on the income status of the participants in our center. We receive a higher payment for those participants/families that are low income.

How does the center determine the income status of my family?

The information you provide on the enclosed Income-Eligibility Application determines the income status and payment level to the center.

I am not sure if I qualify. How do I decide?

If your gross income (before deductions) is the same as or less than the amount on the line for your family size on the income guidelines table below, the center is eligible for the higher payment. When self-employed, net income may be reported. **Please complete and return the Income-Eligibility Application to our office as soon as possible.**

If my household income is greater than the income guidelines for reduced-price meals, or if I choose not to report my income, what should I do?

You should complete Part 4 and may write "above-scale" in Part 3.

Is there another way for the center to receive the higher payment other than using my family income?

Yes. Participants may be eligible for the higher payment based on one of the following:

1. Any member of the household receives Basic Food or Food Distribution Program on Indian Reservations (FDPIR).
2. The participant(s) receives Supplemental Security Income (SSI) or Medicaid.

If a household member currently receives Basic Food or FDPIR, or if the participant currently receives SSI or Medicaid, what should I do?

Complete the attached Income-Eligibility Application, completing Part 2 and Part 4.

Whose signature must be on the Income-Eligibility Application?

All forms require the signature of the adult participant or an adult household member, or legal guardian in Part 4 of the Income-Eligibility Application.

Whom should I contact if I have any questions?

Contact our office at 509-482-2475.

Thank you for helping us provide healthy meals.

Sincerely,

Courtney Weiler
